Manish Kumar

MERN Stack Web Developer

Alwar, Rajasthan | +91 8302958489 | manishkumar.dev08@gmail.com

Career Objective

A passionate and detail-oriented web developer with hands-on experience in HTML, CSS, JavaScript, React, and Node.js. Eager to apply skills in creating dynamic and user-friendly applications, while contributing to the growth of an innovative team.

Skills

- HTML5 / CSS3 (Semantic layout and styling for web pages)
- React.js (Component-based frontend development)
- MongoDB (NoSQL database for dynamic data storage)
- Bootstrap (Responsive UI components and grid system)
- Git & GitHub (Version control and collaborative coding)
- Problem Solving (Debugging and logic building skills)
- JavaScript / ES6 (Modern scripting for dynamic functionality)
- Node.js (Backend logic and server handling)
- Express.js (REST API and middleware routing)
- Tailwind CSS (Utility-first styling for responsive design)
- Responsive Design (Mobile-first and adaptive layouts)
- Deployment (Vercel/Render for hosting web applications)

Projects
